

Student-Centered Assessment: Course 2 Curriculum Anchored Assessment

In this two-day professional learning course, participants choose a unit of instruction and analyze it with the path of student thinking and learning in mind. They then identify and flag key assessment moments across the unit and evaluate those assessments against their vision for equitable science assessment they developed in Course 1. Finally, they determine possible next steps to improve the system of assessments in the unit of instruction. Participants in this course must have access to a set of instructional materials they want to analyze.

Key Goals:

- Understand and use a process to analyze what students will learn and what they will think about in a learning sequence or unit of instruction.
- Understand how to identify and flag key assessment opportunities in a learning sequence or unit of instruction.
- Understand how to evaluate assessment opportunities against a vision of student performance and assessment.
- Understand how to identify key areas in assessment for modification or development.

➔ **Prior to taking this course, participants will need to have completed *Student-Centered Assessment: Course 1 - Foundations of NGSS Assessment*.**

Participants can choose a two-day section that best matches their availability. All sections will run from 8 a.m. to 3 p.m each day.

Dates:

SECTION 2.1

Oct. 24-25, 2023

▶ <https://sdcoe.k12oms.org/1022-233311>

SECTION 2.2

Feb. 20-21, 2024

▶ <https://sdcoe.k12oms.org/1022-233313>

Location:

San Diego County Office of Education
6401 Linda Vista Road
San Diego, CA 92111-7319

Cost: \$150 per individual
